PRESS RELEASE

“RELIEF FOR HAITI”

“Moun ki mete konfyans yo nan mwen y’ap we’ gwo kouran dio k’ap bay lavi koule soti nan ke yo, jan sa ekri nan liv la” HAITIAN WORDS “Out of the Believer’s Heart Shall Flow Rivers of Living Water.”

Our community is struggling to feed their families, keep their jobs and meet their financial obligations. It may be impossible for us to think of the devastation of the people of Haiti but they have no food or water, no job, no money and no place to live. It is hard for us to reach in our pockets to help those in need when we need so much ourselves. But, have you seen any babies in our country without a diaper or clothing or a line of people waiting to receive food and water or living in make shift tents of cloth?

The people of Haiti are currently receiving aid, but in the months and years ahead, they will need so much more of the things that we take for granted.
